Fishing '03

SMOKER CRAFT

This is a story of families and fishing and a love of the water that spans three generations. It's the story of some of the most trusted boats in the industry. With all the details of design and craftsmanship that have brought us here today.

You see, at Smoker Craft, it's all about experiences. Whether you're into high-tech fish chasing. Or seeking maximum versatility for the whole family. Or just looking for a reliable tiller to take you to the action. Our boats are designed to capture the essence of fishing at every level. With a well-bred instinct for what's important to you. And the kind of high-quality construction that backs you up in every situation.

So welcome to our 2003 lineup. This year you'll see some exciting innovations, like the new Stiletto and Pro Mag LE, as well as the new 16' V-Bass. And you'll also see once again why boats like the Millentia and Ultima series continue to be so popular with anglers across the country, year after year.

Fishing '03

SMOKER CRAFT

☛ Quality

At Smoker Craft, we offer many different models to meet many different needs. But at the heart of each and every one is a well-constructed, thoughtfully designed boat that's built to last. After all, we wouldn't put our name on anything less.

☛ Service

We believe that customer service begins right here at the factory — with our commitment to our dealer network and our promise to stand behind every boat we build.

☛ History

When you get a Smoker Craft, you're getting the benefit of three generations of experience. Three generations of research and development. And three generations of relationships with the very best vendors and suppliers in the industry.

☛ Nationwide Sales and Support

Our nationwide dealer network offers expert sales and factory-authorized service to water-loving families across the country. Visit our web site at www.smokercraft.com to locate the dealer nearest you.

☛ Construction

At Smoker Craft, we're proud to offer the best construction in the industry. You'll find the same high level of quality materials and processes across our entire line of boats. From the hat-shaped ribs and raked-back bow design of our aluminum V-hulls to our labor-intensive 7-layer fiberglass construction to the heavy gauge, welded chambers of our pontoon tubes. You can be sure your Smoker Craft is solid from stem to stern.

☛ Safety

Every Smoker Craft boat is built to exacting standards set by the U.S. Coast Guard. From flotation and fuel systems to wiring looms, boat beams, depth and freeboard — Smoker Craft boats are among the safest on the water.

☛ Broad Product Line

At Smoker Craft, our family loves boating as much as yours does. And maybe that's why we continue to offer so many different models and product lines. Fishing, cruising, skiing — simply pick your family's favorite activities and chances are, we've got a package that's perfect for you.

☛ Resale Value

With thousands of Smoker Craft boats on the water today, Smoker Craft is one of the most popular and recognized names in the industry. For you, this popularity translates into higher resale values when it comes time to upgrade.

☛ Innovative Engineering

When it comes to engineering, the little things add up to a big difference. Ideas like one-piece bottoms, more lateral ribs, double riveted seams, 5 bottom keels, and a unique seam sealing tape, to name just a few. Simply put, our research and development team keeps Smoker Craft well ahead of the curve.

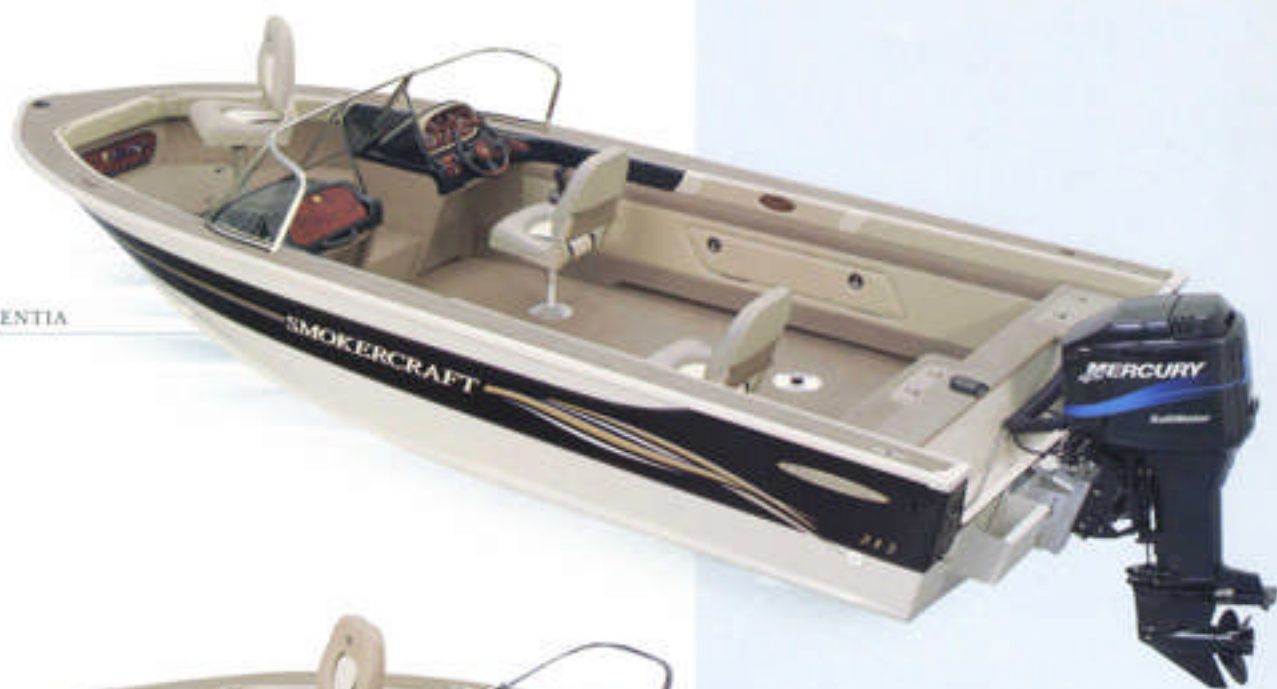

☛ Financial Stability

You don't stay in business as long as we have unless you've earned the financial confidence of a vast number of dealers, suppliers, employees and customers. Just one more reason to feel good about becoming part of the Smoker Craft family.

WARRANTY

Smoker Craft warrants each new aluminum hull for a period of ten (10) years, lifetime warranty on all riveted seams, and each new fiberglass hull for a period of five (5) years, from the date of purchase by the original purchaser (based on years of use under normal recommended operating conditions) as described in the warranty folder. A copy of the Smoker Craft Limited Warranty is attached to each new Smoker Craft boat, or may be obtained from any dealer or the Smoker Craft factory.

Features

CONSOLE

Select models feature our custom-molded consoles with deluxe gauges. Many boats also feature tilt steering, along with either hydraulic or anti-feedback steering. All of our consoles are ergonomically organized, with easy-to-read dials and easy-to-reach switches and circuit breakers. And, on dual console models, you'll also find beautiful walnut grain and such amenities as a lockable glovebox and molded cup holders.

SEATS

Comfort reigns throughout your boat, thanks to our advanced seats with pinch-proof hinges, contoured bottoms and backs, and resilient foam padding. Our roto-molded, wood-free construction ensures that the seats won't warp or rot.

TWICE BAKED URETHANE PAINT

To give your boat a tough, long-lasting finish, we utilize an in-house paint process that begins with a special aluminum grade primer to ensure proper bonding. We then bake two coats of urethane-based paint to the hull.

APPAREL

To complete the package, we offer an exclusive line of Smoker Craft shirts, jackets and hats. For your convenience, you may order online by visiting our website at www.smokercraft.com.

PREMIUM GRADE MARINE ALUMINUM

Our boats exceed industry standards by featuring tempered, tension-leveld 5052 H34 marine grade aluminum.

COVERS & ENGINES

COMMITMENT RUNS IN THE FAMILY.

For three generations, the Smoker family has been committed to building high quality, feature-packed boats for water-loving families across the country. Your Smoker Craft fishing boat is the result of the best in design and engineering. Take a closer look, and you'll find that every detail is constructed to give you the ultimate in safety, comfort and control.

FISHERMAN'S TOP, CURTAINS AND COVERS

To top it all off, we offer the Fisherman's Top and complete curtain packages, on most models. The top, as well as the side, aft and walk-thru curtains, go up quickly and easily, and the top comes with a boot for easy storage. The bow cover and mooring cover are perfect ways to keep your boat clean and dry and ready to go.

FISHERMAN'S TOP WITH AFT AND SIDE CURTAINS AND BOW COVER

MOORING COVER

MERCURY ENGINES

Smoker Craft is proud to offer a full line of reliable Mercury and MerCruiser power options.

MERCURY
The Water Calls

Creating quality experiences, layer by layer.

RAKED BACK BOW

This innovative bow design features an integrated spray rail and gives you not only a smoother, drier ride — but also more room in the bow up above. The .125 one-piece bottom and double riveted seams combine to give the bow its unmatched strength.

A CARPET

Your whole family can rely on the durability of our premium grade, 100% UV stabilized marine carpet, with a 5-year warranty.

B XL PLYWOOD FLOORS

Our floors carry a lifetime warranty, thanks to our specially treated XL plywood that's guaranteed not to warp or rot.

THE FLOW RITE LIVEWELL SYSTEM

This clever design features a fill pump that draws in water, circulating it at the bottom of the tank. An air hole in the top of the fill pipe allows air to mix with the water, keeping fish healthy. The fill pump may be operated manually or on a timer with excess water draining out of an overflow. Plus, a separate recirculating pump works in a continuous loop to keep aerated water moving in the livewell. This is especially helpful when you're refueling or drifting through stagnant water. For easy cleaning, the livewell has a bottom drain, and the hose runs through the transom, not the floor.

E 5-KEEL CONSTRUCTION

Once you've experienced the unmatched stability and handling of five external keels, you'll know why they're so important. The keels also protect your boat from objects beneath the surface, as well as from the wear-and-tear of trailering.

C URETHANE FOAM

One step aboard, and you'll notice the strength and solid support of the floor. That's because we fill every cavity with gasoline-resistant urethane foam to eliminate water pockets and give your boat maximum buoyancy and a quieter ride.

THE RIB SYSTEM

Smoker Craft boats feature our hand-fitted ribs on 10" centers, for unbeatable lateral strength and rigidity.

D STRENGTH

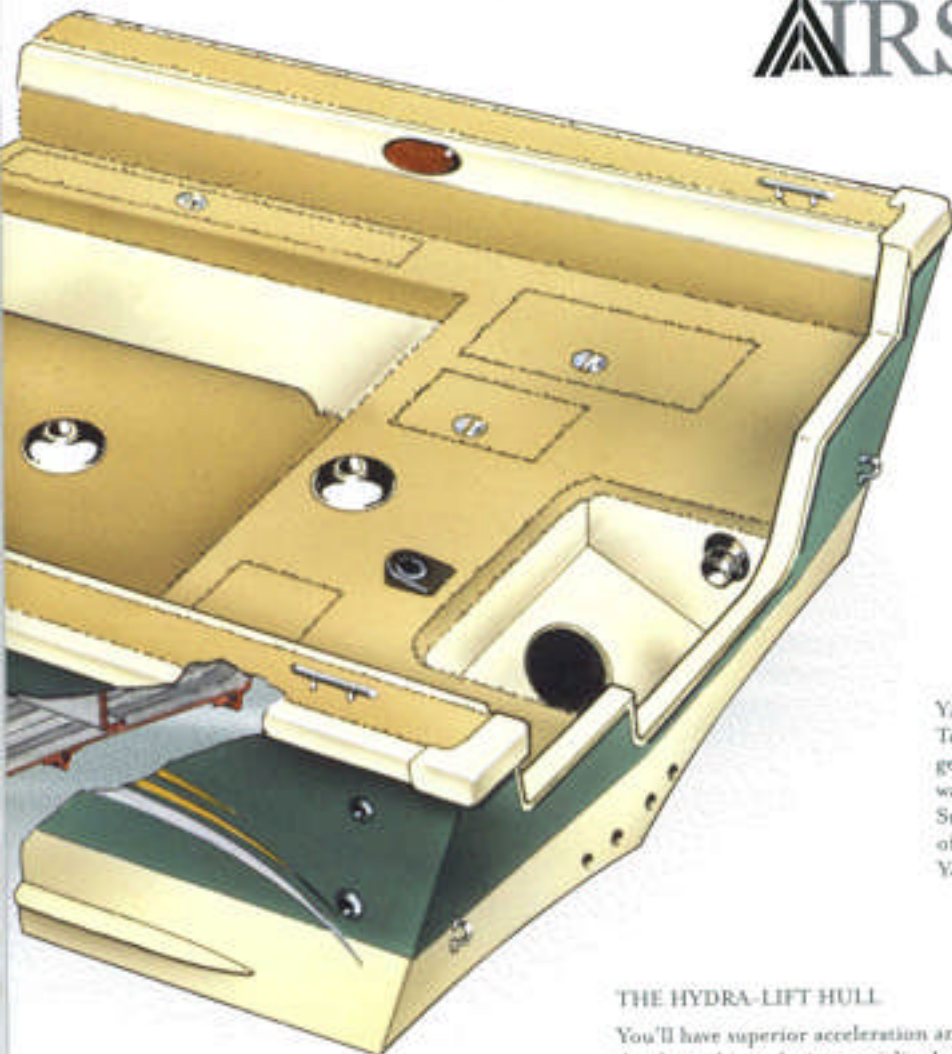

Peel back the layers, and you'll see our recipe for a stronger boat. It includes a .125 one-piece bottom, with .125 gauge hand-fitted ribs on 10" centers — the type of construction you'll find on many of our boats. Combine this lateral strength with five keels running longitudinally, and you get superior impact resistance and improved lift, handling, bottom support and protection.

A.I.R.S. RIB SYSTEM

THEIRS: DOUBLE PLATED

The choice is clear! Our exclusive Advanced Integrated Rib System utilizes hand-fitted, hat-shaped ribs for superior longitudinal strength and rigidity that simply outperforms our competitors' double-plated aluminum.

YAMAHA ENGINES

To ensure that you get the power you want for your Smoker Craft, we offer a full line of Yamaha® outboards.

THE HYDRA-LIFT HULL

You'll have superior acceleration and control thanks to this exclusive specialized reverse chine design. It keeps the bow down as you accelerate, getting you out of the hole faster.
