

'74 Smoker-Craft

Smoker-Craft aluminum runabouts for

Outboard T-Bird

16' and 18' runabouts

Spacious craft, the 16' and 18' T-Birds are designed to offer the ultimate in riding comfort, ease of handling and safety of operation. T-Birds are fast, provide quiet clean cornering without skidding, are roomy enough for the whole family.

Interior design includes vinyl covered side paneling and dash board, upholstered sleeper seats, complete mechanical steering and plenty of room for storage.

Their top flight modified vee hull design fabricated from maintenance free heavy gauge aluminum, plus a flared bow deck give you a drier and safer ride. All of these features will add up to complete boating enjoyment. T-Bird 16' and 18' require long shaft motors.

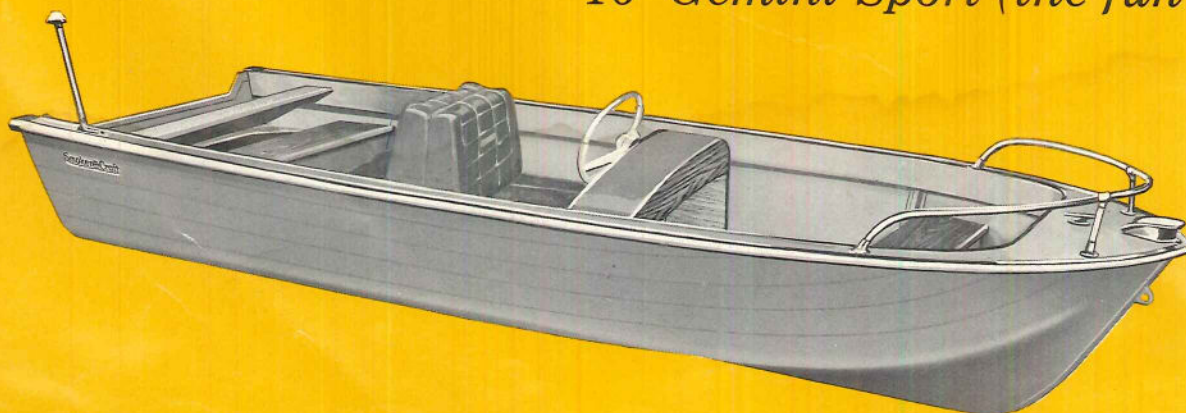

T-Bird Outboard	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats
16'	16'2"	16'4"	75"	37"	34"	70"	75 H.P.	560 lbs.	3	4
18'	18'2"	18'6"	82"	42"	37 1/2"	76"	100 H.P.	760 lbs.	3	4

STANDARD EQUIPMENT: Dry storage area under deck, upholstered fold out back-to-back bunk seats, vinyl covered side panels and dash board, vinyl covered floor, bumper rails with vinyl insert, complete steering, running lights, chocks, bow eye.

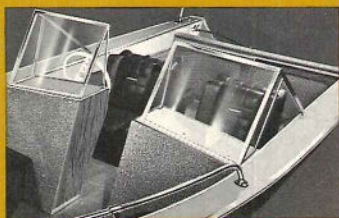

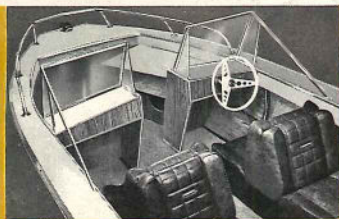

Convertible top is optional equipment on both 16' & 18' T-bird.

Smoker-Craft Runabouts feature the safety and rigidity of poured-in-place foam flotation.

16' Gemini Sport (the fun boat)

more fun...more carefree boating

17' Sportabout

modern aluminum
lapstrake construction with
luxury, versatility
and proven performance

This sleek runabout is one of the finest boats in the Smokercraft line.

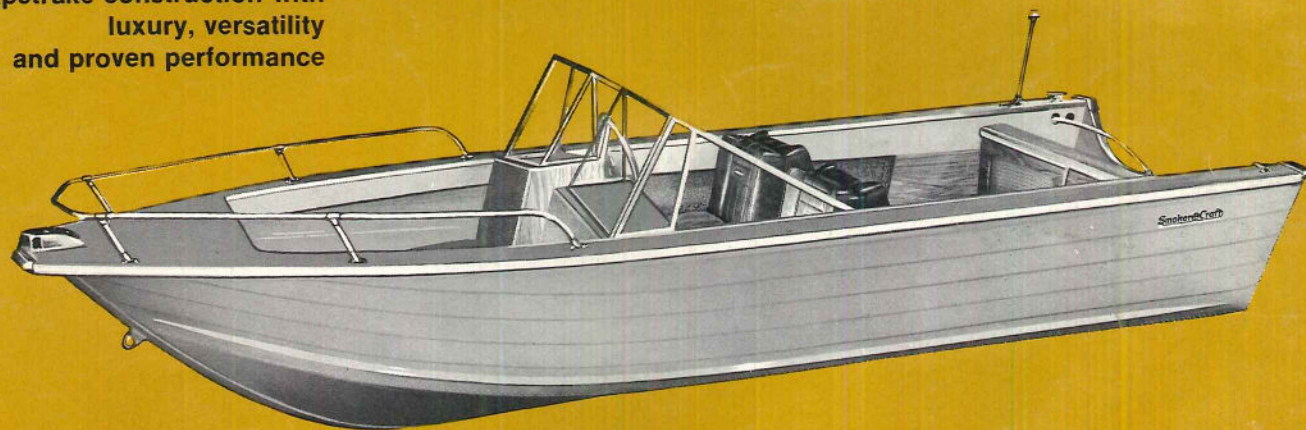

Of lapstrake aluminum construction with unitized hull, the Sportabout has a handsomely appointed interior; luxurious upholstered back to back lounge seats, vinyl covered side paneling, vinyl floor covering and double windshields for easy access to the forward cockpit. Seventeen feet of today's modern on-the-go boat. Its versatility extends to dad's fishing jaunts, the younger set's skiing activities or just total family boating. Requires a long shaft motor.

Sport- about	Center Length	Gun- wale Length	Beam	Bow Height	Center Height	Tran- som Width	Size Motor	Approx. Weight
17'	16'9"	17'2"	77"	40"	35"	74"	75 H.P.	660 lbs.

STANDARD EQUIPMENT: Dry storage area under seats, upholstered fold out back to back lounge seats, vinyl covered side panels and dash board, vinyl covered floor, bumper rails with vinyl insert, complete mechanical steering, running lights, chocks, bow eye and bow rail.

ALUMINUM THICKNESS: Stem .080, Transom .080, Bottom .065, Sides .060, Ribs .080.

*Top, side curtains, front deck cover available as optional equipment.

WITH TRI-HULL DESIGN

A roomy all-round fun boat featuring vinyl upholstered "Skipper and Mates" seats, vinyl covered bow and stern seats, under seat storage and complete steering assembly. The 16' Gemini Sport and Gemini have a new Smokercraft hull design which provides increased riding stability. A flat floor provides easier getting about. These craft incorporate the best features of both runabouts and larger fishing boats and are made for the whole family whether skiing, fishing, picnicking or just cruising about. Requires a long shaft motor.

Gemini	Center Length	Gun- wale Length	Beam	Bow Height	Center Height	Tran- som Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
16'	15'8"	16'7"	69"	30"	28"	63 1/2"	40 H.P.	280 lbs.	5	4	1050 lbs.

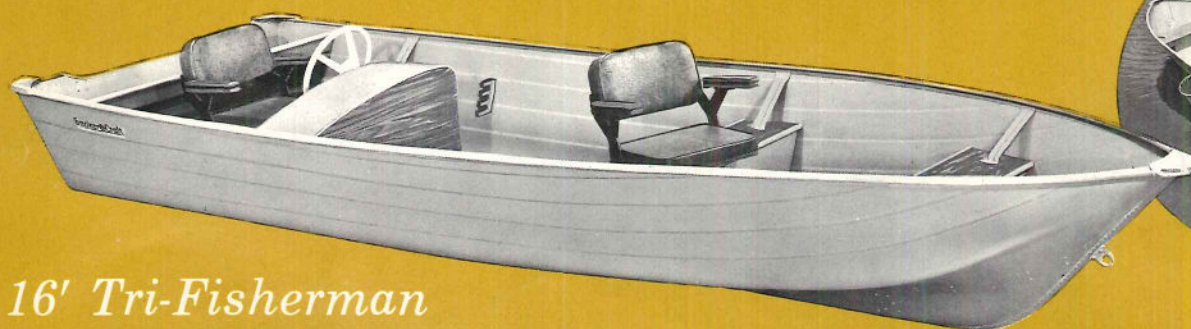

16' Gemini

Same as Gemini Sport less bow rail, running lights, wiring harness and bow cleat.

STANDARD EQUIPMENT for Gemini Sport: Bow rail, running lights, wiring harness, bow cleat, bow eye and stern eyes.

ALUMINUM THICKNESS: Entire hull excluding transom is of .060 Stretch formed, heat treated aluminum alloy. Stem .080, Transom .080.

Aluminum boats...exciting design, rugged, fast, safe

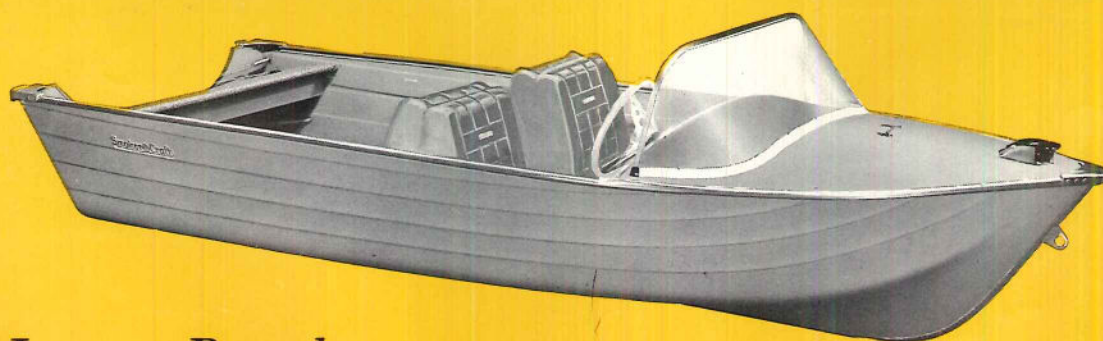

16' Tri-Fisherman

For the dollar conscious fisherman who is interested in a stable, comfortable and dry riding boat in big water. This basic boat fills the needs of fishing sportsmen who require convenience, comfort and maneuverability without the expense of added frills. Design features of the Tri-Fisherman include a self draining motor well, smooth non-skid aluminum floor and the steadiness of Smokercraft Tri-Hull design. Fast when the need arises, stable for trolling the Tri-Fisherman makes an ideal boat for any fishing enthusiast. Requires a long shaft motor.

Tri-Fisherman	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
16'	15'8"	16'7"	69"	30"	28"	63½"	40 H.P.	265 lbs.	5	3	1050 lbs.

STANDARD EQUIPMENT: Steering console complete with mechanical steering, 2 upholstered swivel seats, wash well, drain plug, control mount, rod holders, bow eye, two stern eyes, stern lifting handles, bow casting with lifting handle.

ALUMINUM THICKNESS: Entire hull excluding transom is of .060 Stretch form aluminum alloy. Stem .080, Transom .080.

14' Lancer Runabout WITH TRI-HULL DESIGN

This maintenance-free, front deck, lapstrake aluminum and new tri-hull design runabout will provide you and your family with exciting but safe boating pleasure.

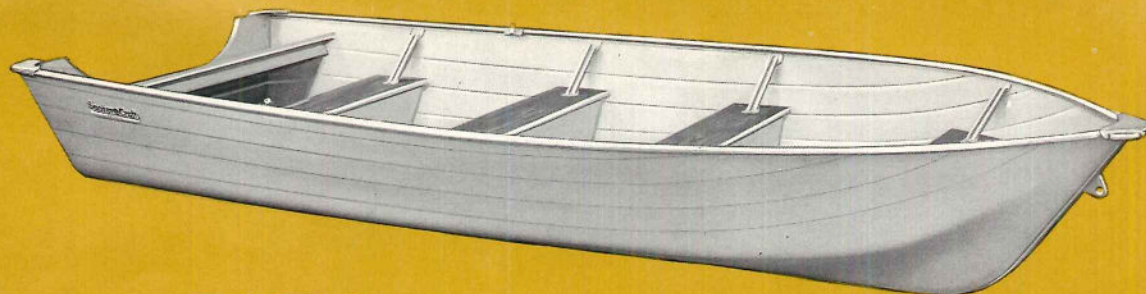

The Smokercraft Lancer 14' has a smooth flat floor, wrap around windshield, complete steering and self-draining motor well. It is a superbly maneuverable, fast and comfortable craft. The Lancer 14' is considered to be an excellent Ski Boat. Requires a short shaft motor.

Lancer	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
14'	13'10"	14'7"	65½"	29"	24½"	57"	40 H.P.	230 lbs.	5	4	950 lbs.

STANDARD EQUIPMENT: Wrap-around windshield, complete steering, self-draining motor well, painted hull and deck, non-skid painted floor, foam flotation, back-to-back seats, deck cleat, bow light and bow eye.

ALUMINUM THICKNESS: Entire hull excluding transom is .050 Stretch form aluminum alloy. Stem .080, Transom .080.

... with the Smoker-Craft reputation for quality

16' Vega Tri-Hull

Three Vegas are offered this year. The 16' model illustrated above, with its rugged Tri-Hull 5 Keel construction is an extremely stable, highly maneuverable and safe boat. A big roomy craft, the 16' Vega has a self draining motor well, many items of standard equipment and more than ample foam flotation under its smooth, rib-free floor and vinyl covered wood grain seats. This sturdy Smokercraft product is easily one of the best fishing boats on the market today.

STEERING CONSOLE, complete with mechanical steering and is available as optional equipment, will fit standard 4 seat models of either the Vega 16' or Vega 14' Tri-Hulls. Short shaft motor required.

16' Vega Tri-Hull	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
16'	15'6"	16'4"	68"	28"	27"	63 1/2"	40 H.P.	265 lbs.	5	4*	1370 lbs.

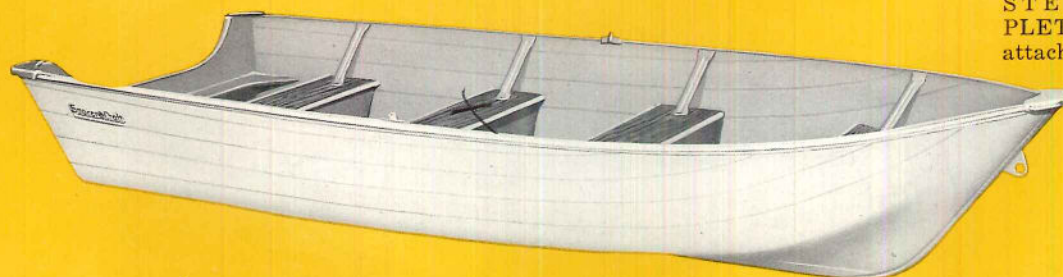

STANDARD EQUIPMENT: Vinyl covered wood seats, cast aluminum stern handles, nylon insert oar sockets, self-draining motor well, aluminum capped motor mount, non skid painted interior, expanded flotation, entire exterior hull painted, 5 keel bottom construction, bow and stern eyes.

ALUMINUM THICKNESS:
Entire hull excluding transom is of .060 Stretch formed, heat treated aluminum alloy.
Stem .080, Transom .080.

* Available with Three Seats on Special Order.

STEERING CONSOLE COMPLETE: Showing console in position attached to seat. For 4 seat models of Vega 16' and 14' only.

14' Vega Tri-Hull

The second in size of the three Vegas. An extremely stable craft, strongly built and fantastically maneuverable it can literally turn on a dime even at high speeds.

Its comfort, ease of moving about and stability are assured to the user by four vinyl covered wood grain seats, a smooth flat non-skid aluminum floor, and Tri-Hull, 5 Keel construction. Eminently seaworthy the 14' Vega Tri-Hull is an excellent craft for fishing, utility or any other boating purposes. Short shaft motor required.

14' Tri-Hull	Center Length	Gun-wale Length	Beam	Bow Height	Center Depth	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
14'	13'10"	14'7"	65 1/2"	27"	24 1/2"	57"	25 H.P.	200 lbs.	5	4*	1000 lbs.

STANDARD EQUIPMENT: Vinyl covered wood seats, cast aluminum stern handles, nylon insert oar sockets, aluminum capped motor mount, non-skid painted interior, expanded flotation, entire exterior hull painted, 5 keel bottom construction, bow eye.

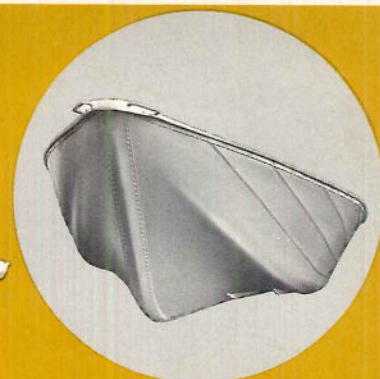

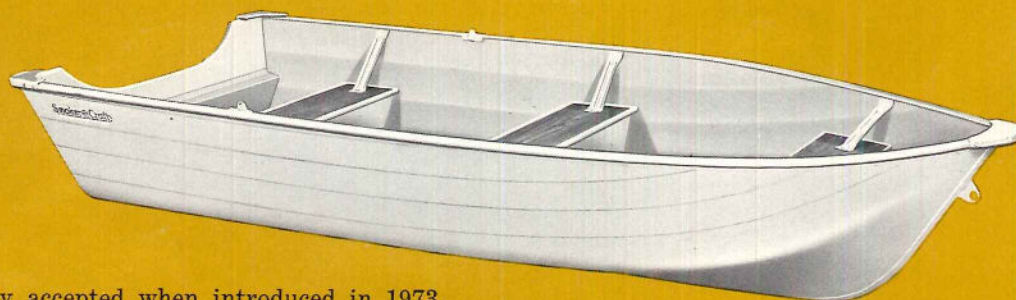

ALUMINUM THICKNESS: Entire hull excluding transom is of .056 Stretch form aluminum alloy.
Stem .080, Transom .080.

* Available with Three Seats on Special Order.

NOTE: The swivel seats shown as standard equipment in the 16' Tri-Fisherman may be ordered as an accessory item and easily installed by the owner in the Vega and Zephyr boats.

Aluminum boats...rugged, easy handling, lightweight,

12' Vega Tri-Hull

Smoker-Craft's unique Tri-Hull design.

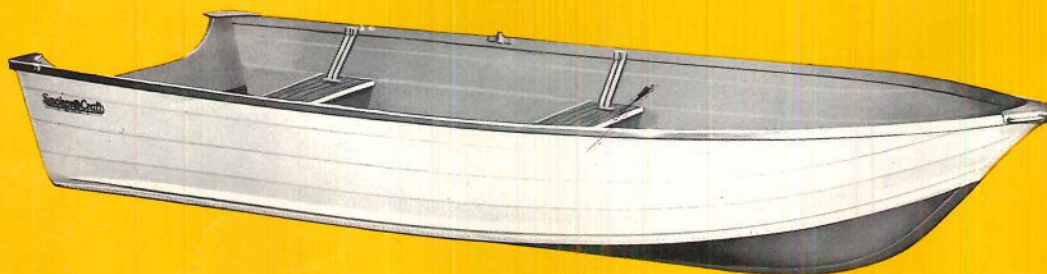

Widely accepted when introduced in 1973, this craft has become a worthy addition to the ruggedly built and extremely stable 14' and 16' series of Smokercraft Tri-Hull Vegas. The smaller and thus lighter 12' Vega Tri-Hull shown above is of heavy gauge all aluminum construction with a smooth, flat, non-skid floor, wood grain vinyl covered seats and the well known Smokercraft Tri-Hull 5 keel Vega construction. Highly stable, its poured in place foam flotation adds to the solid feeling of a "heavy-weight" in this shorter 153 lb. craft.

12' Vega Tri-Hull	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
12'	11'10"	12'4"	59½"	27"	23¾"	55"	15 H.P.	153 lbs.	5	3	700 lbs.

STANDARD EQUIPMENT: Wood grain vinyl covered seats, nylon bushed oar locks, non-skid interior paint, fully painted exterior hull, drain plug, cast aluminum bow and stern lift handles, 5 keel bottom construction, bow eye.

ALUMINUM THICKNESS: Entire hull excluding transom is of .056 Stretch formed aluminum alloy. Stem .080, Transom .064.

Zephyr 12' and 14'

A wide beam, light weight modern looking fishing boat with strong construction and clipper bow. The Smokercraft Zephyrs are made to give big boat feeling and performance in 12' and 14' craft. The flair of their bows makes them wider, drier boats, excellent performers in rough water.

ZEPHYR 12' ALUMINUM THICKNESS: Sides .050, Ribs .050, Bottom .050, Transom .064, Stem .080, Keel .074, Skid Rails .070.

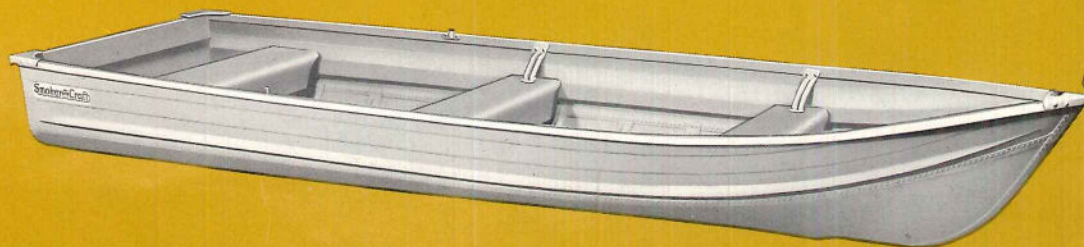

Zephyr	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
12'	12'	13'	58½"	27"	22"	53¼"	12 H.P.	140 lbs.	3	3	575 lbs.
14'	14'	14'8"	60"	27"	22"	53¼"	22 H.P.	170 lbs.	3	3	800 lbs.

STANDARD EQUIPMENT: Includes expanded flotation, lapstrake design, cast aluminum lift handles, nylon insert oar sockets, non-skid painted interior, 3 keels, 3 wood grained vinyl covered seats, spray rails, transom drain, painted lapstrake sides.

ZEPHYR 14' ALUMINUM THICKNESS: Same as 12' except Bottom which is .064.

with the Smoker-Craft reputation for quality

Portager 12' and 14'

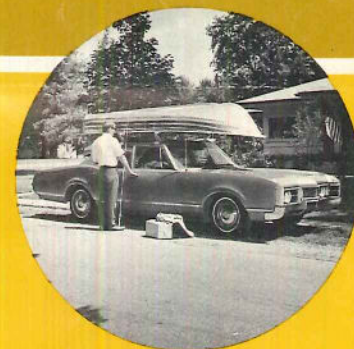

These are light and sturdy aluminum car-top fishing boats with lapstrake sides. Heavily reinforced, riveted construction assures you seaworthy craft at all times. Either size handles easily and maneuvers quickly. The 12' Portager is especially favored as an all around fishing boat.

ALUMINUM THICKNESS: Sides .050, Bottom .050, Ribs .050, Stem .080, Transom .064, Keel .074, Skid Rails .070.

Portager	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
12'	11'9"	12'4"	52"	25"	17 3/4"	46"	10 H.P.	100 lbs.	3	3	560 lbs.
14'	13'9"	14'4"	52"	25"	17 3/4"	46"	15 H.P.	117 lbs.	3	4	650 lbs.

STANDARD EQUIPMENT: Cast aluminum lift handles, nylon insert oar sockets, expanded flotation non-skid painted interior, 3 keels, transom drain, painted lapstrake sides, wood grain vinyl covered seats.

Sportsman 10', 12' and 14'

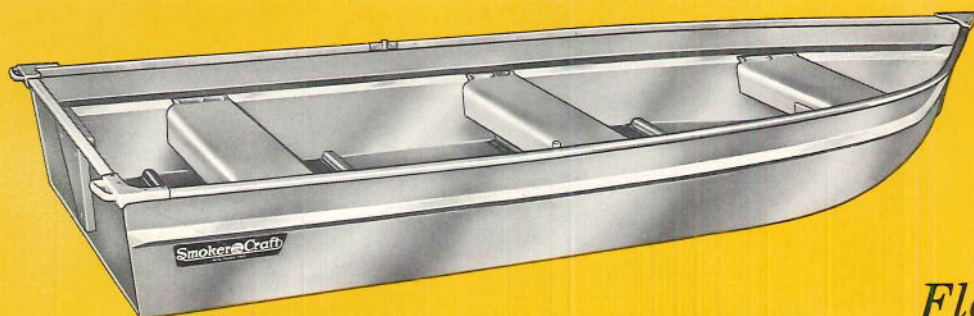

Sportsman	Center Length	Gun-wale Length	Beam	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
10'	10'	10'7 1/2"	50 1/2"	25"	17"	46 1/2"	6 H.P.	74 lbs.	1	2	380 lbs.
12'	11'9"	12'4"	52"	25"	17"	46 1/2"	7 1/2 H.P.	90 lbs.	1	3	500 lbs.
14'	13'9"	14'4"	52"	25"	17"	46 1/2"	9.9 H.P.	95 lbs.	1	4	650 lbs.

STANDARD EQUIPMENT: Cast aluminum lift handles, nylon insert oar sockets, expanded flotation non-skid painted interior.

ALUMINUM THICKNESS: Sides .050, Bottom .050, Ribs .050, Stem .080, Transom .064, Keel .074.

Are you looking for a bargain in a good looking, lightweight, portable lapstrake aluminum boat? Take a look at these three, the Smoker-Craft 10', 12', and 14' Sportsman. Sturdily constructed, easily handled they are the ideal answer to the need for lightweight fishing and utility craft. Sportsman have foam flotation, non-skid painted interiors and can easily be carried as cartoppers, the 10 footer weighing only 74 pounds.

Smoker-Craft offers fishermen and sportsmen more

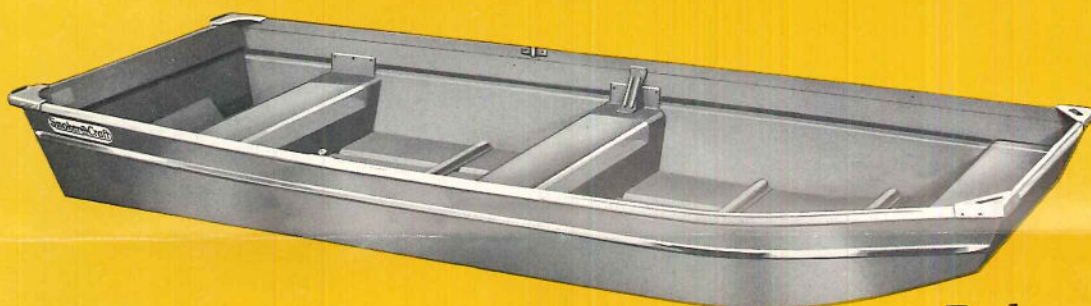

Fisherman	Center Length	Gun-wale Length	Beam	Bottom Width	Bow Height	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
12'	11'10"	12'4"	51"	40"	14 1/2"	14 1/2"	47"	6 H.P.	77 lbs.	3	3	360 lbs.
14'	13'10"	14'4"	51"	40"	14 1/2"	14 1/2"	47"	7 1/2 H.P.	90 lbs.	3	4	425 lbs.

STANDARD EQUIPMENT: Cast aluminum lift handles, three formed aluminum seats, 4 seats in 14', nylon insert oar sockets, foam flotation, non-skid painted interior.

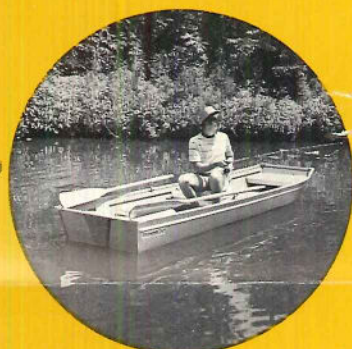

ALUMINUM THICKNESS FOR BOTH MODELS: Sides and bottom .050, Transom .050, Ribs .050, Bow .050.

Flat Bottom Fisherman 12' and 14'

Economical, lightweight, flat bottom boats with V-prows, especially made for fishermen. These boats are well suited to carry into those hard to get to lakes. Because of their light weight transportation presents much less of a problem. With a minimum of maintenance a Fisherman will give you excellent service.

Deluxe Prams	Center Length	Gun-wale Length	Beam	Bottom Width	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
12'	12'2"	12'	53"	40"	15 1/2"	47"	9 1/2 H.P.	97 lbs.	3	3	560 lbs.
14'	14'2"	14'	53"	40"	15 1/2"	47"	9 1/2 H.P.	116 lbs.	3	4	700 lbs.

Deluxe Prams

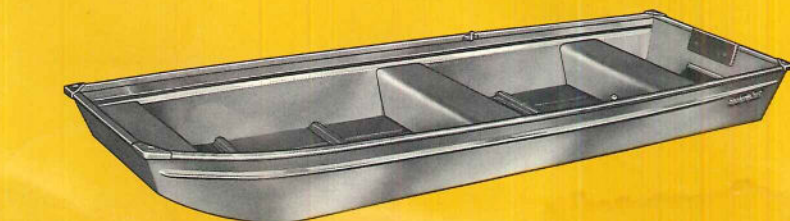

The DeLuxe prams are made for those who desire a wider and deeper boat which will provide added stability and convenience in rivers and small lakes. DeLuxe prams are made in 12' and 14' lengths, fabricated as one-piece welded hulls from .050 gauge aluminum throughout.

Included as standard equipment are nylon insert oar sockets, aluminum corner castings and foam flotation.

Standard Prams

A complete and varied selection of Smoker-craft standard Prams rugged and light for fishing and utility purposes. Made from heavy aluminum with stamped in spray rails for extra rigidity and performance. Light in weight, with one-piece welded aluminum hulls these flat ended boats are excellent as cartoppers and for use in quieter waters.

STANDARD EQUIPMENT: Foam flotation, nylon insert oar sockets, aluminum corner castings, .050 aluminum used throughout.

Standard Prams	Center Length	Gun-wale Length	Beam	Bottom Width	Center Height	Transom Width	Size Motor	Approx. Weight	No. of Keels	No. of Seats	Weight Capacity
8'	8'	8'	41 1/2"	31"	13"	38"	1.7 H.P.	52 lbs.	3	2	200 lbs.
10'	10'	10'	41 1/2"	31"	13"	38"	3 H.P.	62 lbs.	3	3	300 lbs.
12'	12'	12'	41 1/2"	31"	13"	38"	5 H.P.	74 lbs.	3	3	410 lbs.
14'	14'	14'	41 1/2"	31"	13"	38"	7 1/2 H.P.	94 lbs.	3	4	475 lbs.

8' and 10' Standard Prams have same shaped aluminum seats as those shown in Sportsman above.

fun, more choice in quality aluminum construction

DELUXE ALUMINUM CANOES

Featuring Smokercraft "Unispon"
Design Plus Special Heat Treatment
for Increased Hull Strength

Sioux 15' double end Chippewa 17' double end

One of the finest aluminum canoes made today. Of good size with graceful lines and sound design. Maneuverable and safe with Smokercraft's "Unispon" for added stability. Stretch formed on giant hydraulic presses and heat treated for extra strength, from .051 gauge aluminum.

CANOE SPECIFICATIONS

Canoe	Center Length	Beam	Bow Height	Stern Height	Approx. Weight	Capacity	Weight Capacity
Sioux SD 15'	15'	38"	21"	21"	79 lbs.	4 Persons	600 lbs.
Chipp. SD 17'	17'	39"	21½"	21½"	86 lbs.	5 Persons	760 lbs.

Hawk 14' square stern Mohawk 16' square stern

Popular square stern canoes with the same construction and quality features as the 15' and 17' double enders, they are roomy, of wide beam and depth for large capacity. Adaptable to cargo carrying. Riveted transoms will support 3 and 3½ HP motors. Their design also includes the Smokercraft "Unispon."

CANOE SPECIFICATIONS

Canoe	Center Length	Beam	Bow Height	Transom Height	Approx. Weight	Size Motor	Capacity	Weight Capacity
Hawk SD 14'	13'10"	38"	21"	16"	70 lbs.	3 H.P.	3 Persons	575 lbs.
Mohawk SD 16'	15'10"	38"	21½"	16"	82 lbs.	3½ H.P.	3 Persons	745 lbs.

IMPORTANT FACTS ABOUT SMOKERCAFT CANOES

ALL SMOKERCAFT DELUXE CANOE HULLS ARE HEAT TREATED AFTER FORMING. THIS IS ACHIEVED BY 8 HOURS EXPOSURE IN GIANT OVENS TO PRODUCE MAXIMUM HARDNESS IN THE 6061 ALUMINUM ALLOY.

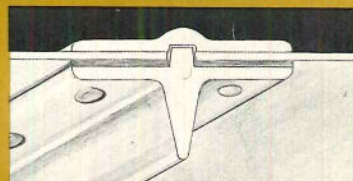

CANOE CONSTRUCTION INCLUDES THE FOLLOWING: Expanded flotation exceeding industry standards, non-skid painted interiors, aluminum gunwales, bow and stern castings, rugged inner-outer keel construction, .065 gauge thwart, .050 die formed ribs, .051 hull thickness, 5/32 Braizier head rivets.

SMOKERCAFT UNISPON

UNISPON is a longitudinal widening of the hull just above water line running the length of the canoe and providing these benefits:

1. Greater width at the water line for added carrying capacity.
2. A stronger hull.
3. Greater width makes greater stability and maneuverability.

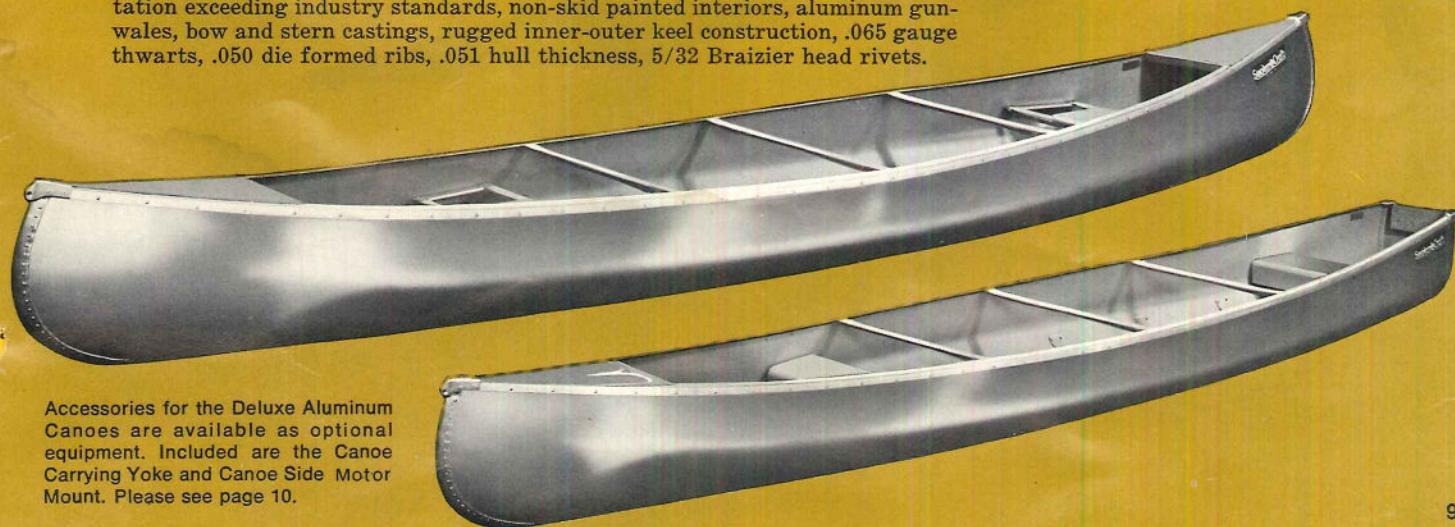

INNER-OUTER KEEL

A two-piece keel, an inner .125 gauge keel and an outer .300 gauge keel with the hull riveted in between for greater strength and rigidity.

Full rolled edge decks provide comfortable lifting handles and added strength.

Accessories for the Deluxe Aluminum Canoes are available as optional equipment. Included are the Canoe Carrying Yoke and Canoe Side Motor Mount. Please see page 10.

The popular Standard canoes...the tough Whitewater

ALUMINUM STANDARD CANOES

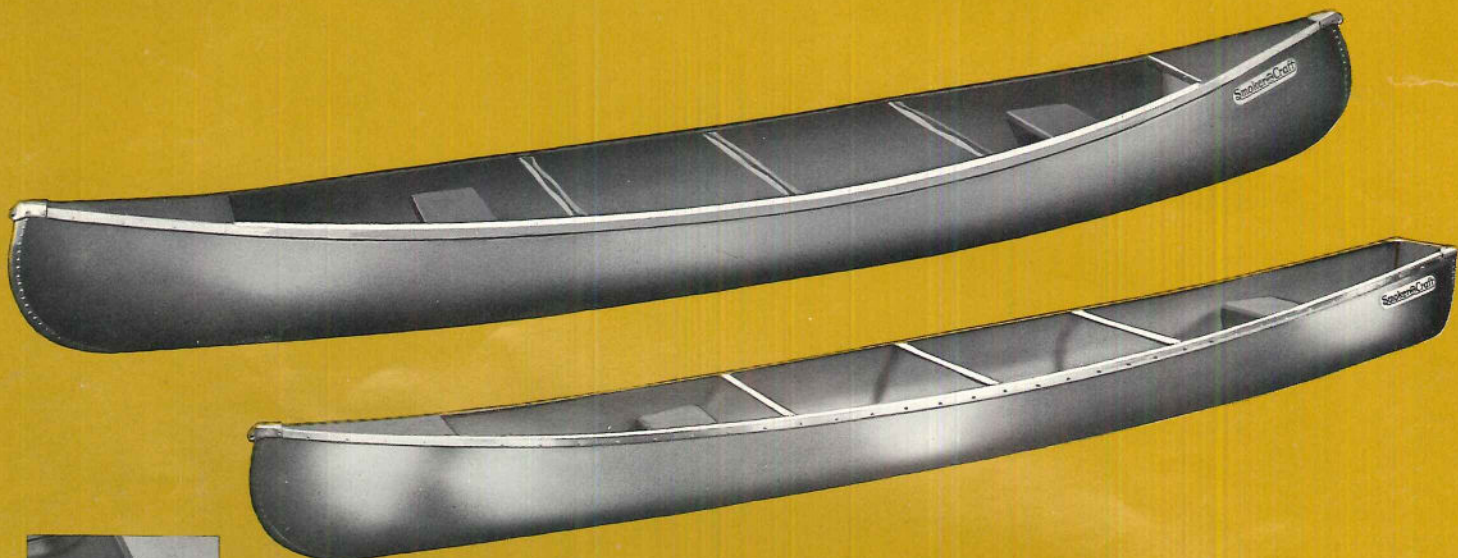

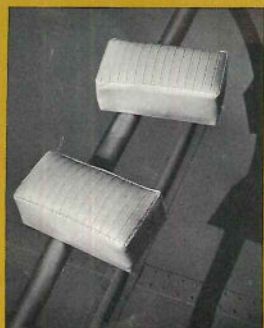

Photo showing secure attachment of motor to stern of canoe.

CANOE CARRYING YOKE
Soft padding and strong construction of this yoke makes portaging easier. Easily installed on center thwart.

CANOE SIDE MOTOR MOUNT
Attaches quickly and easily to all double end canoes. Strong, light in weight.

Standard 15' and 17' double end canoes

Smoker Standard double end canoes are ruggedly built of .051 gauge marine aluminum to give long lasting service. These conventional shaped canoes have almost the same dimensions as the Smoker Deluxe canoes except for the omission of the Unispon and a slightly different seat construction. Standard canoes are more economical in cost but rugged enough for any wilderness or camping use.

CANOE SPECIFICATIONS

Canoe	Center Length	Beam	Bow Height	Stern Height	Approx. Weight	Capacity	Weight Capacity
SS 15	15'	37½"	21"	21"	83 lbs.	4 Persons	600 lbs.
SS 17	17'	37½"	21½"	21½"	89 lbs.	5 Persons	760 lbs.

Standard 14' and 16' square stern canoes

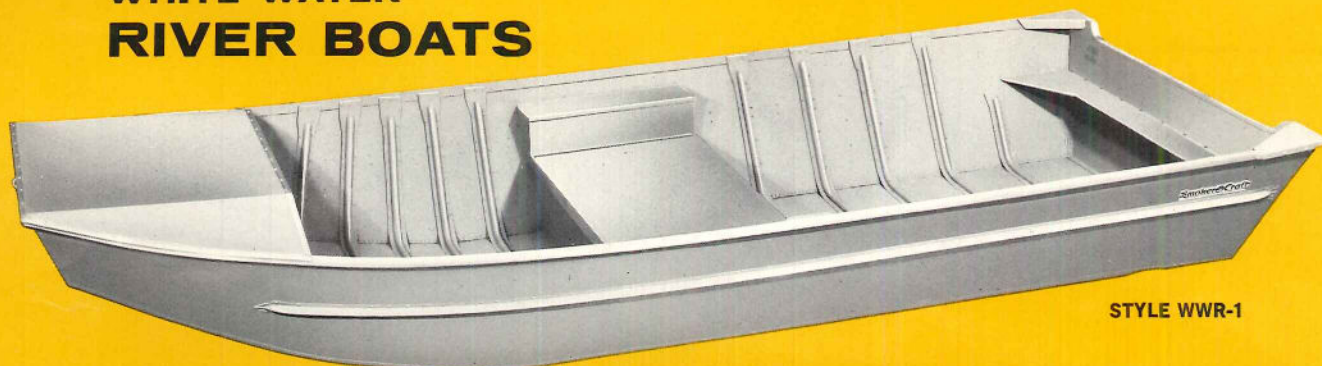

Smoker square stern canoes in two popular lengths. Designed for use with 3 and 3½ HP motors. Same rugged construction as the double end standard models. They feature inner and outer keel construction, aluminum gunwales, bow and stern castings, expanded flotation and painted, non-skid interiors.

CANOE SPECIFICATIONS

Canoe	Center Length	Beam	Bow Height	Transom Height	Approx. Weight	Size Motor	Capacity	Weight Capacity

SS 16	15'10"	37½"	21½"	16"	77 lbs.	3½ H.P.	3 Persons	745 lbs.

River boats...all have the Smoker-Craft quality reputation

WHITE WATER RIVER BOATS

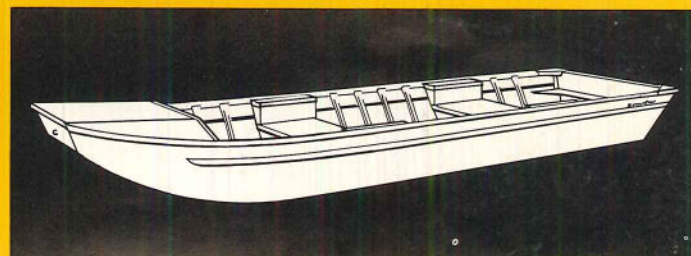

STYLE WWR-1

Smokercraft White Water River Boats, strongly built are made to take rough going in fast waters. Recently redesigned they now have important improvements that provide; (1) an increase in depth of $2\frac{3}{4}$ " (2) elimination of the welded center seam (3) the use of extruded keels and spray rails for greater strength. All models have full $1\frac{1}{2}$ " thick motor boards, one piece ribs and full riveted construction.

The WWR-4 series has 2 amidship seats, 4 storage boxes and *two* rear corner seats.

STYLE WWR-4

Smoker-Craft

Royale II

BUILT OF NEW A. B. S. PLASTIC*

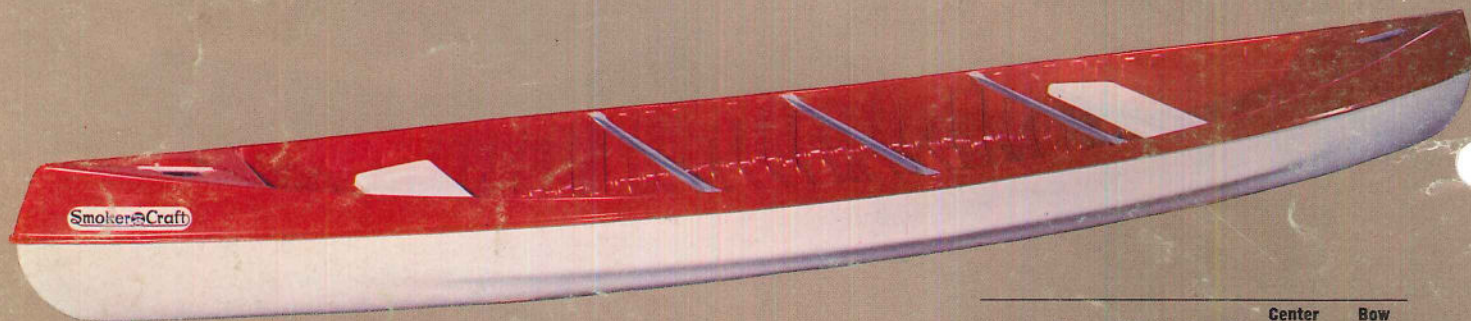

A GRACEFUL, EASILY HANDLED 17' CANOE FABRICATED FROM A. B. S.* THE MODERN PLASTIC.

A modern plastic wedded to a time proven design now gives you a canoe that is a pleasure to own and a joy to use. More buoyant than aluminum or fiberglass, highly impact resistant, the Royale II offers you features found

in no other canoe on the market today. Clean flowing lines plus the Smoker-Craft Unispon, and high buoyancy factor make the Royale II a winner all the way. For the "old timer" or the novice, the summer camp or rental service, it's got what it takes for canoeing pleasure. With color molded all the way through, nicks and scratches hardly show. Resistant to dirt and stain the Royale II is easy to keep clean. The inner and outer hull construction plus the addition of Styrofoam in the bow and stern make it practically unsinkable. Flush mounted bow and stern handles and three aluminum thwarts put the finishing touches to the Royale II.

Views showing inner hull above and inner-outer hull joined below

*A.B.S. Plastic is Acrylonitrile-butadiene-styrene.

GUARANTEE

All Smokercraft aluminum hulls are guaranteed for life against skin puncture under recommended use on water to the original registered owner. Hulls are also guaranteed for one year against defective material and workmanship, excluding paint damage and failure. Canoes carry the same guarantee except for this reservation: cracks and/or holes induced as a result of crimping the side curved surface are not covered. This damage is frequently caused from towing the canoe behind a powerboat or bending the bottom over an obstruction so severely that a crease develops in the side curved surface. Towing the canoe behind a powerboat voids this guarantee. Equipment and components provided, but not manufactured by Smokercraft, are not covered by this guarantee but are subject to the guarantee of their respective manufacturers. The judgment of the factory is final as to the extent of liability. Necessary repairs will be made at the factory free of charge. Transportation charges to and from the factory shall be paid by the owner. This guarantee is in lieu of all other guarantees expressed or implied. *No boat, flotation notwithstanding, is unsinkable. Therefore, approved life preservers should be carried for each passenger.

*Boats and canoes used for commercial purposes are not covered by this guarantee.
